### Summary

I am an ambitious and energetic student, who commits a lot of his time, learning new upcoming technologies. I have studied in numerous fields of coding including web and android development, microcontroller hardware and game development. As a high school student, I was introduced to Mobile Game Development which grabbed my interest instantly and I've been dedicated to exploring this vast field ever since. In my free time, I like to learn new things, program, travel, read books and ride my motorcycle. Besides studying for the university, I'm learning to develop Web and Android applications.

### Education

Faculty of Computer and Information Science      October 2018 - Present  
Ljubljana

Emphasis on superlative technical knowledge and acquisition of fundamental theoretical as well as practical knowledge in the field of computer and information science.

- Programming languages: Java, Javascript, Python, PHP, C & R
- HTML5 & CSS3
- MySQL
- Web development
- Android app development
- ARM microcontroller development
- Linux
- Vagrant
- Docker
- Kubernetes
- WebGL
- GTK
- Software testing & quality
- User interfaces
- Artificial intelligence
- Algorithms and data structures
- Computer communications
- Operating systems
- Graphic design
- Communication protocols and network security
- Computer graphics
- Statistics

Electrotechnical and Computer School      September 2014 - June 2018  
Nova Gorica

A computer technician knows the basic elements of software, rules for writing programs and basic knowledge of syntax and semantics in writing programs, and is also qualified to manage information equipment.

- Programming languages: Java, Javascript & PHP
- HTML & CSS
- Oracle SQL & MySQL
- Oracle Forms
- Web development
- Android app development
- Hardware & Software management
- Motorola microcontroller development

### Skills

Java

Python

HTML5

CSS3

SQL

Bash

MVC

Git

Linux

PHP

Android

jQuery

Django

C

Arduino

- Linux & Windows server management
- Powershell
- Computer communications
- Electrical knowledge

LateX

Vagrant

Laravel

Docker

Kubernetes
